

30 Retro Runner with Wendy Nutt – Mon 17

Website - www.quiltamour.com.au

Size: 88cms x 39cms (34½" x 15")

A funky modern table runner is put together using what Wendy calls 'puzzle appliqué'. This technique will give you practice in precision machine stitching. The whole runner top is pieced together like a puzzle then layered with the batting and backing. Using satin stitch, all layers are then quilted together. To finish off the runner, mitred corners and a self-border finish the edges. This project will have you thinking where else this technique can be applied. Wendy will bring samples to show you how adaptable this method is.

Skill level – beginners (if you like a challenge) to advanced.

31 Tassels with Deb Wight - Mon 17

These beautiful tassels make wonderful adornments to cupboards, doors, lamps, curtains etc, or as gifts to give. Deb will guide you step by step through this process – it's lots of fun, no pressure and your own handcrafted tassel should be completed in a day. The tassels are supplied as a kit at a cost of \$50.00. Each kit will include 2 x wooden tassel forms, hand painted laces and braids, plus beads, needles and glue with enough of all the components to complete two tassels. Due to the materials being hand dyed you will have a choice of either cool, warm or neutral colours. There will be lots of spare kits for you to make your selection from. This workshop is suitable for all skill levels.

32 Chatelaine with Jenny Bowker – Tues 18

Website – www.jennybowker.com

The Chatelaine is a pretty, practical, comfortable accessory to hold all your hand stitching essentials. It sits around your neck like a scarf. If you travel by bus or plane you can stitch as you go and will never need to grope beneath your seat for scissors. At patchwork friendship groups you do not need the arm of a chair or a coffee table – it is all around your neck.

Even if you are not sewing, the Chatelaine will hold your phone, tissues, glasses, and iPod. They make wonderful gifts, fun group projects for a stitching day together, and are an excellent way for a teacher to show students a lot of simple processes and finishing techniques for patchwork. Jenny will teach you many different skills of machine and hand stitching. Suitable for all skill levels.
