

One Day Workshops

19 *Playing with Curved Half Square Triangles* with Heather Ford Mon 16

Size: 170 cm x 170 cm or 65" x 65"

In this workshop learn how to use the Quick Curve ruler and construct curved half square triangles. The curved piecing requires no pinning and is quick and easy. You can lay the blocks out as in the sample quilt or you may like to play and come up with other designs. I have photos of five alternative configurations. You will need the Quick Curve Ruler and this class is suitable for all skill levels.

20 *Woodland Bouquet* with Linda Haigh Mon 16

Size: 68 cm x 78 cm or 27" x 31"

Woodland Bouquet uses a mixture of grey/green neutral fabrics for a soft modern look. In this class we will start with a sample piece to try your hand at needle turn. Never liked needle turn appliqué? Hate those curves? Well, this is the easiest and neatest way using the glue stick and semi-water soluble paper method. The paper is left in your project and breaks down into fibres. Glue baste your appliqué pieces with Roxanne appliqué glue (no pins) and you are ready to stitch. The appliqué is hand stitched to your background, but if you still want the "needle-turn" look but prefer to machine to the background you can do that too. A nice relaxing class, this class is suitable for all skill levels and beginners are most welcome.

21 *Rulers for Machine Quilting* with Heather Hopkins Mon 17

Learn how to quilt with rulers on your domestic machine. This class will give you the confidence to create amazing designs and you will learn the techniques involved with handling rulers, understanding the marks on the rulers and playing with different shapes to see what effect they will give your quilting. You will complete Heather's Versa Tool sampler and, if time permits, we will branch out further and experiment with a variety of different rulers. Heather's classes are conducted in a casual and fun manner so there is no pressure to perform and you can work at your own pace to get what you need out of the class time.

***Please note you must have a RULER foot to suit your machine and the Handi Quilter Versa Tool Ruler to complete the project – cost \$35.00.

22 *Playing on Black* with Jacqui Karl Mon 16

Size – 137 cm x 166 cm or 54" x 66"

Jacqui has created this design using a different method of applique to maximise the use of your fabric. It looks stunning in any colour combination, provided there is good contrast between your fabric choices. You will not complete the whole quilt top, but at the very least get quite a few blocks made to master this technique – depending on how fast you work. For all skill levels – easy and lots of fun as always with Jacqui!
